Innovation & Tech Today is an official media partner of organizations around the world, including CES, CEDIA, USASEF, Greenbuild, and more. Our award-winning editorial and strategy has earned us national recognition from industry leaders and high-profile thought leaders alike.

Our editorial team includes veteran, award-winning business, technology and communications journalists, industry experts on top of emerging technologies, and fresh young voices obsessed with tech. Multiple award winners include Automotive Editor Michael Coates, Gaming & Entertainment Editor John Gaudiosi, and Founding Editor and Senior Writer, Robert Yehling.

But hey, you don’t have to take our word for it.

“Everyone on the Innovation & Tech Today team has been so friendly and great to work with. They have taken the time to understand ELK’s focus on true security against physical intruders and cyber threats in this “connected focused” world. They have worked with us to tell our story through more than just advertising and we consider Innovation & Tech Today a valuable resource in developing awareness for the ELK brand. We truly appreciate how they go the extra mile.”

Our audience cares about the environment, education, science communication, and discernible facts. They’re looking for great stories and brands that stand for something bigger than their bottom lines.

We actively support and partner with organizations making a difference, such as USASEF, Greenbuild, Sustainable Brands, and others, which allows our advertising partners to support these causes too.
Innovation & Tech Today is a proud media partner of the USA Science & Engineering Festival. Committed to celebrating innovation and investing in our future, the USA Science & Engineering Festival perfectly complements the mission of I&T Today. In addition to covering the festival in Washington D.C. in 2018 & 2020, we’re increasing STEM coverage in our new extended Education section. This section is repurposed for the USA Science & Engineering to be distributed to their email subscribers. You get the culture you celebrate, so celebrate STEM!

As a proud media partner of Sustainable Brands, I&T Today is committed to discussing key issues in both corporate and personal sustainability including water use, food waste, electricity and fossil fuels, transportation, sustainability communications, green tech and initiatives, the intersection of business and sustainability, and more. Discussion and celebration of the strides made in sustainability are pivotal during this time in our country and planet's history!
